

Mahadevan M

Python Developer | Django Developer

+91 9778035091 | mahadevanm407@gmail.com | GitHub | LinkedIn | Portfolio

Summary

Computer Science graduate with hands-on experience building web applications and REST APIs using Python, Django, and Django REST Framework. Skilled in JWT authentication, role-based access control, CRUD operations, and MySQL database integration. Strong foundation in JavaScript, HTML, CSS, and Bootstrap. Seeking an entry-level Python Developer / Software Developer role to apply backend development and problem-solving skills.

Technical Skills

Languages: Python, JavaScript, SQL

Frameworks: Django, Django REST Framework (DRF)

Frontend: HTML, CSS, Bootstrap, JavaScript (DOM)

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Concepts: REST API Development, JWT Authentication, CRUD Operations, Role-Based Access Control (RBAC), Object-Oriented Programming, Agile/Scrum, Debugging

Experience

Full Stack Python Developer Trainee – Edure Learning

2025 – Present

- Undergoing intensive training in Python, Django, Django REST Framework, REST API development, JWT authentication, JavaScript, and MySQL database integration.
- Building hands-on projects covering role-based access control, authentication systems, and CRUD-based applications.

Python Django Full Stack Intern – Infocylanz

May 2023

- Worked on Django web development fundamentals, frontend integration, debugging, and database operations.
- Collaborated with the development team to troubleshoot issues and implement feature updates.

Projects

Learning Management System (LMS)

Django, DRF, MySQL, JavaScript

- Built a role-based Learning Management System with separate modules for Admin, Academic Manager, Faculty, and Student.
- Developed REST APIs with Django REST Framework using JWT authentication and role-based access control.
- Implemented batch/course management, syllabus allocation, faculty assignment, attendance, grading, and feedback workflows.
- Built a faculty leave workflow with multi-level (Academic Manager and admin) approval, plus an announcements module for academic updates.

Hospital Management System

Django, MySQL

- Built patient, doctor, appointment, and prescription management modules with authentication and role-based access control.
- Integrated MySQL database and implemented full CRUD operations for core hospital entities.

JWT Authentication System

Django REST Framework

- Developed registration, login, token refresh, and protected dashboard APIs using JWT access and refresh tokens.

Personal Portfolio Website

HTML, CSS, JavaScript

- Built a responsive portfolio website to showcase projects, technical skills, and contact information.

Education

B.Tech in Computer Science and Engineering – Muslim Association College of Engineering, Venjaramood

2025

CGPA: 7.48

Achievements & Extracurriculars

- Presented a project at TechFest Shastra 2025.
- Served as Student Editor for the college magazine.
- Coordinated technical fest activities and events.
