

Mahadevan M

Python Developer | Django Developer

+91 9778035091 | mahadevanm407@gmail.com | GitHub | LinkedIn | Portfolio

Summary

Computer Science graduate with hands-on experience building web applications and REST APIs using Python, Django, and Django REST Framework. Skilled in JWT authentication, role-based access control, CRUD operations, and MySQL database integration. Strong foundation in JavaScript, HTML, CSS, and Bootstrap. Seeking an entry-level Python Developer / Software Developer role to apply backend development and problem-solving skills.

Technical Skills

Languages: Python, JavaScript, SQL

Frameworks: Django, Django REST Framework (DRF)

Frontend: HTML, CSS, Bootstrap, JavaScript (DOM)

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Razorpay

Concepts: REST API Development, JWT Authentication, CRUD Operations, Role-Based Access Control (RBAC), Payment Gateway Integration, Object-Oriented Programming, Agile/Scrum, Debugging

Experience

Full Stack Python Development - Training – Edure Learning

2025 – Present

- Python, Django, Django REST Framework, MySQL – full-stack web application development training
- REST API Development, JWT Authentication, Role-Based Access Control – hands-on project implementation
- CRUD Operations, Database Integration, JavaScript – end-to-end application building

Python Django Full Stack Intern – Infocylanz

May 2023

- Django, HTML, CSS, JavaScript – frontend-backend integration and web development fundamentals
- Debugging, Database Operations – feature development and issue resolution with the team

Projects

Learning Management System (LMS)

Django, DRF, MySQL, JavaScript

- Role-Based Access Control – separate modules for Admin, Academic Manager, Faculty, and Student
- Django REST Framework, JWT Authentication – secure REST APIs across different user roles
- Batch & Course Management, Syllabus Allocation, Faculty Assignment – academic administration workflows
- Attendance, Grading, Feedback – faculty and student interaction modules
- Multi-Level Approval Workflow – leave management with Faculty, Academic Manager, and Admin review
- Announcements and Fee Management – academic communication and payment-related features

Library Management System

Django, DRF, MySQL, JavaScript

- REST API Development – implemented APIs for books, members, borrowing, and return management
- CRUD Operations, MySQL – managed library records and database relationships using Django ORM

Hospital Management System

Django, MySQL

- Role-Based Access Control – patient, doctor, appointment, and prescription management modules
- MySQL, CRUD Operations – database integration for core hospital entities

JWT Authentication System

Django REST Framework

- JWT Access & Refresh Tokens – implemented registration, login, token refresh, and protected APIs

Personal Portfolio Website

HTML, CSS, JavaScript

- Responsive Design – portfolio website showcasing projects, technical skills, and contact information

Education

B.Tech in Computer Science and Engineering – Muslim Association College of Engineering, Venjaramood

2025

CGPA: 7.48

Achievements & Extracurriculars

- Presented a project at TechFest Shastra 2025.
- Served as Student Editor for the college magazine.
- Coordinated technical fest activities and events.

Languages

English, Malayalam
